CONDACUT

Neat Oil

Mineral Base

MACHINING

MINERAL BASE MACHINING NEAT OILS

With more than 160 years of experience in lubrication, CONDAT has developed, in partnership with the machining industry, the CONDACUT neat oil range. Driven by responsible innovation, CONDAT is commited to formulate products that both meet your performance requirements and improve your industry working environment.

Our lubrication expertise

The CONDACUT range is formulated with refined mineral oils and innovative additives. You will find the optimal neat oil technology that fullfills the lubrication and cooling needs of your operations :

Multi-material:
- Steel
- Cast Iron
- Aluminium
- Copper…

Multi-operations:
- Grinding
- Bar turning
- Drilling
- Gear cutting…

Multi-fonctions :
- Cutting
- Lubrication

High performance

CONDACUT products help to improve the reliability of your operations and to increase machining efficiency.

Quality Improvements:
- Surface Finish
- Tighter Tolerances
- Lower Scrap Rate

Cost reduction :
- Tools
- Lubricant
- Waste

Oxydation stability

Improved working conditions

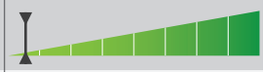

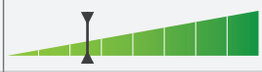

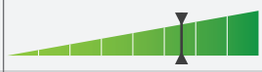

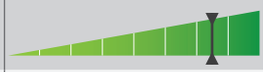

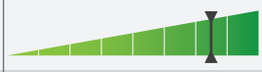

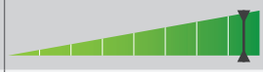

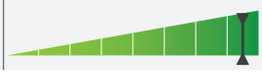

Concerned about the neat oils Health & Safety impact, our CONDACUT range includes formulas adapted to the latest regulatory requirements.

Advantages:
- Reduction of mists and fumes
- Clear oils for better visibility
- Reduced risk of operator irritants

CONDAT

PROVIDING INNOVATION TO YOUR INDUSTRY
