EIGHT®

EXCELLENT HEXAGON WRENCHES SINCE 1958

MADE IN JAPAN

EIGHT TOOL is a manufacturer of the world's highest quality hexagon wrenches and Torx / Torx Plus wrenches.

EIGHT has specialized in hexagon wrench manufacturing in Japan for over 60 years and has provided the world's highest quality tools for all industries. Made of originally-developed special alloy steel "SNCM+V" that incorporates the torsional strength and abrasion resistance, EIGHT's high quality standard and 2,000+product lines have earned recognition as a trusted brand from industry professionals all over the world.

Having its headquarters in Osaka, Japan, EIGHT manufactures all products in Japan under the strictest quality control. EIGHT strives to service professional users and assist in enhancing productive and efficient factory operations. EIGHT TOOL America services U.S. customers from offices and warehouses in Los Angeles, CA and Bay City, MI.

SNCM+V®

Special alloy steel originally developed for EIGHT hexagon wrenches. Outstanding wear resistance and torsional strength give EIGHT that superior quality expected by our professional customers.

HRC 53~60

Rockwell "C" Scale 53~60 Degree : EIGHT's product hardness standard exceeds others to provide exceptional wear resistance.

2,000 + Items

Proud specialist of Hexagon, Torx, and Torx Plus wrench manufacturing. EIGHT's product line exceeds 2,000 items to accommodate various needs of our customers.

EIGHT®

EXCELLENT HEXAGON WRENCHES SINCE 1958

MADE IN JAPAN

Taper Head Hex Key 9pcs. Set (Metric)

TLS-9N (Inch : TEL-S9N)

TLS-9N is a representative model of EIGHT TOOL. The set contains basic 1.5 ~ 10mm hex key wrenches that are manufactured under high quality standards and filled with EIGHT TOOL originalfeatures such as Taper Head and EL/ARMOUR plating. The hinged double decker holder allows wrenches to be removed with ease.

With "extension pipes" for torque leverage.

TLS-9NP (Inch : TEL-S9NP)

TLS-9NP is the same 9pcs. set that comes with our unique "extension pipes" for additional torque leverage.

TAPER HEAD HEX KEY SET (Metric / Inch)				
Product No.	Unit	Set of	Sizes	Box
TLS-9N	mm	9	1.5, 2, 2.5, 3, 4, 5, 6, 8, 10	5
TLS-9NP	mm	9	1.5, 2, 2.5, 3, 4, 5, 6, 8, 10	5
TEL-S9N	Inch	9	1/16, 5/64, 3/32, 1/8, 5/32, 3/16, 1/4, 5/16, 3/8	5
TEL-S9NP	Inch	9	1/16, 5/64, 3/32, 1/8, 5/32, 3/16, 1/4, 5/16, 3/8	5

"TAPER HEAD"

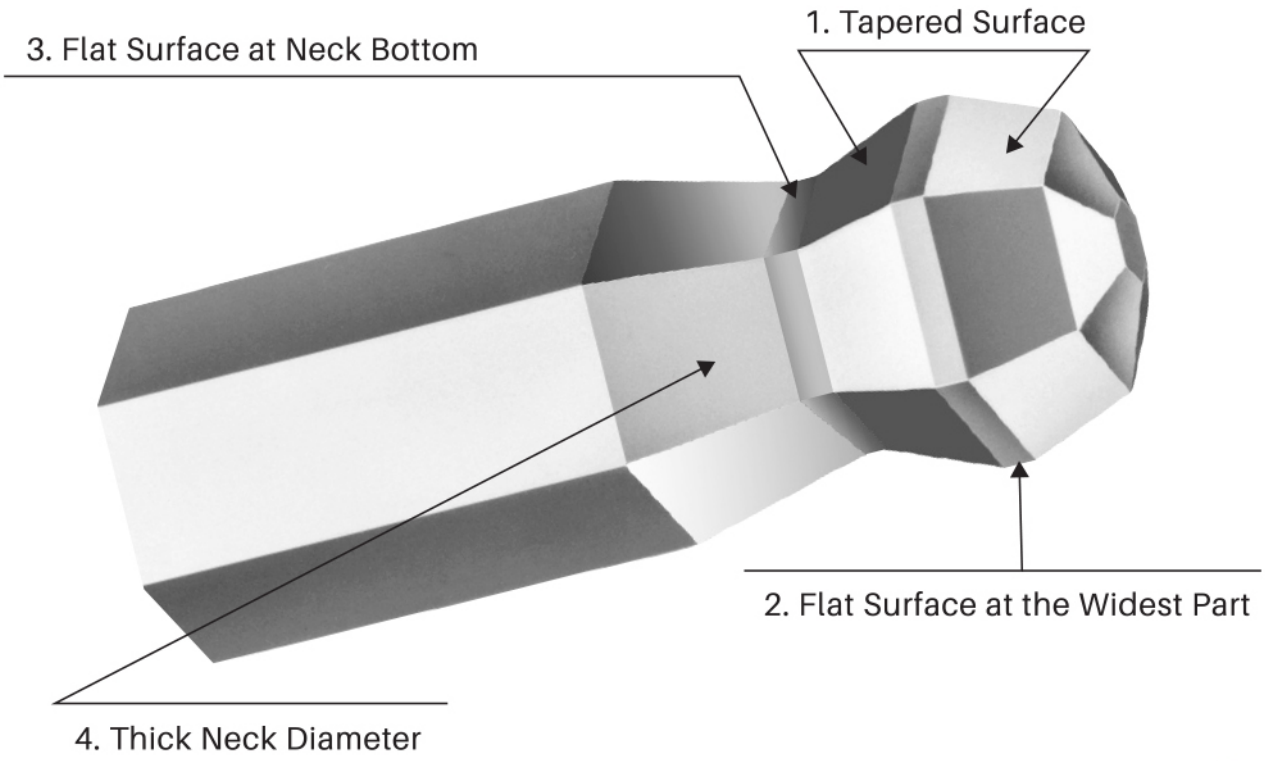

Taper Head

EIGHT's original feature that enhances ball point function with tapered surface.

*Individuals are also available

TL-1.5 ~ 19	mm	1.5 ~ 19
TEL-1/16 ~ 3/8	Inch	1/16 ~ 3/8

TAPER HEAD HEX KEY WRENCHES

EIGHT's original feature that enhances ball point function. This innovative head design enables pre-fastening to final fastening of a bolt by increasing the surface contact area to the bolt face. Increasing the contact area not only enhances the fastening strength but also prevents both the wrench head and the bolt face from wearing out.

"TAPER HEAD"

1. Tapered Surface

Tapered Surface is designed to increase the surface contact area for the usage with angle.

3. Flat Surface at Neck Bottom

Flat Surface portion at the Neck Bottom enhances torque resistance to prevent the neck from breaking in high-torque usage.

2. Flat Surface at the Widest Part

Flat Surface at the Widest Part ensures the surface contact for the usage without angle.

4. Thick Neck Diameter

Thick Neck Diameter enables final tightening, while the ball-point head is designed only for pre-tightning.

EIGHT®

EXCELLENT HEXAGON WRENCHES SINCE 1958

MADE IN JAPAN

Taper Head Multi-Color Hex Key Set

TLC-S9NP / TLC-S7

Multi-color sets help identify wrench sizes by color, while highly visible blight colors prevent wrench losses.

Taper Head Single-Color Hex Key Set

EIGHT®

EXCELLENT HEXAGON WRENCHES SINCE 1958

MADE IN JAPAN

EIGHT'S ORIGINAL HEXAD-CHROME-FREE PREMIUM HARD PLATING

EL/ARMOUR

NEW

ENHANCED ABRASION RESISTANCE

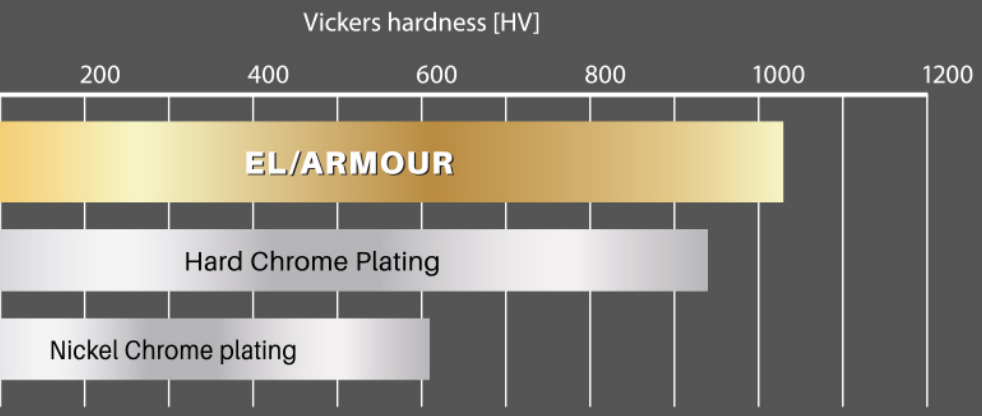

ENHANCED RUST RESISTANCE

HEXAVALENT CHROMIUM FREE

EIGHT's original new plating achieves superior abrasion and rust resistance. This environmentally friendly, hexad-chrome -free plating technology is EIGHT's significant step forward towards next-level tooling.

TLS-9NPB

* EIGHT's new plating achieves superior Vickers 1,000+ for surface abrasion and rust resistance, while wrench core still manufactured with EIGHT's Original SNCM+V metal maintains torque-ideal HRC : 53～60.
